HERE'S WHAT'S UP!

Message - Chairman Message - Principal StaffOnam 2k22 Onam Celebration 2k22 NSS Civil Engineering Workshop Fifth Semester Toppers Placed Students

VISION

Provide excellent engineering education, imparting skill development and innovation ecosystem to create engineers that cater to the needs of the society with strong ethical values

MISSION

- Qualified faculty and intact infrastructure, bestow creative and innovative engineering education.
- Equip the students with competent and cutting edge technologies.
- Mould the students to meet the changing challenges with global outlook.
- Inculcate moral and ethical values among students so as to serve the needs of the society.

"It is not always possible to be the best, but it is always possible to improve your own performance." Jackie Stewart

To be the best version of you, create space for growth. This space allows you to focus on self-awareness, accountability, productivity, interpersonal relationships, willingness to learn and delivering consistently excellent work.

Creating this space will not be easy and will require an honest assessment of your weaknesses and experiences that may not be pleasant to confront. But selfimprovement is worth the trouble. Find your purpose in life and make the best out of the little time available.

Sometimes we find ourselves stuck on a road we don't enjoy. This can be through social pressures or maybe expectations that you have taken on board from outside influences. Whatever the reason, life is too short not to be happy. We just assume that it's what we're supposed to do, so we carry on.

Make a list of the things you enjoy or that you used to enjoy but no longer do. Ask yourself why you don't do these things. Then, actively work to bring them back into your life. Perhaps you'll find a new career from that, and you'll have a brand-new sense of enjoyment in your working life.

We don't only need money and success in life. To be happy and healthy, we need friends, family, relationships, and a strong sense of self. You can't be happy when you don't have these things, either at all or in small amounts. Work to balance everything carefully and create the space you need to fit everything in. This doesn't mean being overwhelmed with juggling ten different things. It means finding a happy medium.

When you create space in your life, you'll find that happiness, health, and a general sense of contentment follow."

"If you don't produce, you won't thrive - no matter how skilled or talented you are", Cal New Port.

We sincerely wish to be more productive, and at the moment, we lose our hearts, blaming all of it on technological progress. The internet, emails and social media provide that we are always connected but also make us overly distracted by various encouragements. We find it hard to concentrate on our work, and everyday tasks become a blur. To overcome this, we need to relearn one vital skill to reverse the adverse effects of this global interconnectedness. This skill is deep work that calls for concentration on a cognitively demanding task. The type of work that optimizes your performance is deep work.

Deep work is a strategy that will benefit you in the long run. It is when you put in the hours over a sustained period to become an authority in a field. It's about investing the time to master a skill and reap the benefits of being an expert. It can help you become a better writer, researcher, or entrepreneur. It can also make you significantly more productive in your job and personal life.

Suppose you're not comfortable going deep for extended periods. In that case, it'll be difficult to get your performance to the peak levels of quality and quantity necessary to thrive professionally. Unless your talent and skills dwarf your competition, the deep workers among them will outproduce you.

UEC Management

V.K Shamsudeen, Chairman & Managing Trustee

P.B. Abdul Jabbar, Chief Patron

P.K. Salim, Vice Chairman

C.K. Mukundan, Vice Chairman

Jayraj B. Pillai, Secretary

V.K. Abdul Gafoor, Treasurer

V.K. Abdul Salam, Joint Secretary

Jabir K. Mohmmed, Executive Director

P.B. Anvar, Executive Member

P.B. Zainudeen, Executive Member

Academic Heads

Dr. Jose K Jacob, Principal

Dr. K K Narayanan, Head of the Department, Applied Science & Humanities

Dr. Sreeraj R, Head of the Department, Computer Science & Engineering

Dr. Premshankar, Head of the Department, Mechanical Engineering

Dr. Harinarayanan, Head of the Department, Civil Engineering

Dr. Joly, Head of the Department, Electrical & Electronics Engineering

Dr. Arun Pradeep, Head of the Department, Electronics & Communication Engineering

CLUB ACTIVITIES FOR THE MONTH - OCTOBER 2022

- Blood donation programme in association with NSS(UEC) (Voluntary Blood Donation Day) - Science Club
- Old age home visit NSS
- Aptitude Hunt Series Thinkbots Revive Internal Training Team
- Painting competition (Wild life Week) Science Club
- Swatch barath day NSS
- Webinar CESA Association
- Poetry Competition (Hindi) Literary & Debate Club
- JAM (Just A Minute))Random Topics would be shuffled in jar and each student has to pick one and speak about it for a minute - Revive - Internal Training Team
- KTU E-Zone and inter-zone tournament preparations Sports
- World mental health day NSS
- Industrial Visit hosted by Tesla, EEE association Tesla Association
- Naatarivu' seminar ENCON Club
- Talk on 'How to apply for project funding' R&D Cell
- Technical debate Srishti Club
- Motivation class for staff Staff Club
- Paperica, Paper presentation Tesla Association
- Launching of project Wings Club
- Online Workshop on Product Development using CAD -TechnoCAD Club

- Poster making on Women Empowerment -Women cell
- Aptitude Hunt Series Thinkbots Revive -Internal Training Team
- Food fest (World Food Day) Science Club
- World food day NSS
- STTP: App Development Short term training program on App Development FOSS Club
- Teck talk/webinar Agni Association
- Aptitude Hunt Series Thinkbots Revive -Internal Training Team
- Basic science technicaltalk series in association with science club and organized by Mathematics club (FDP) - Science Club
- Basic science technical talk series in association talk series in association with science club -Mathematics Club
- Aptitude Hunt Series Thinkbots Revive -Internal Training Team
- Technical Talk by expert AIR Club
- A program outside our college Dance Club
- Oldage home visit Music Club
- Session on Achieving Problem-Solution Fit & Product-Market Fit IIC & IEDC Club
- Webinar ARMS Association

SEPTEMBER 2022

Onam Celebration 2K22

SEPTEMBER 2022

NSS 590, Universal Engineering College shared the happiness and prosperity of the Onam with the inmates of Shalom Sadhan, Perinjanam

NSS 590, Universal Engineering College conducted an awareness programme on importance of wearing helmet to the students and faculties on 22-09-2022

NSS 590, Universal Engineering College organised a "Beach Cleaning" at azhikode Beach on September 23 2022. Removing trash from beaches will not just ensure a beautiful coastline but help to maintain a healthy marine ecosystem. NSS volunteers of the college engaged in cleaning and collecting the garbage of the beach side. Besides, they also interacted with visitors and public requesting to maintain cleanliness and avoid use of plastic items which was the major source of waste collected.

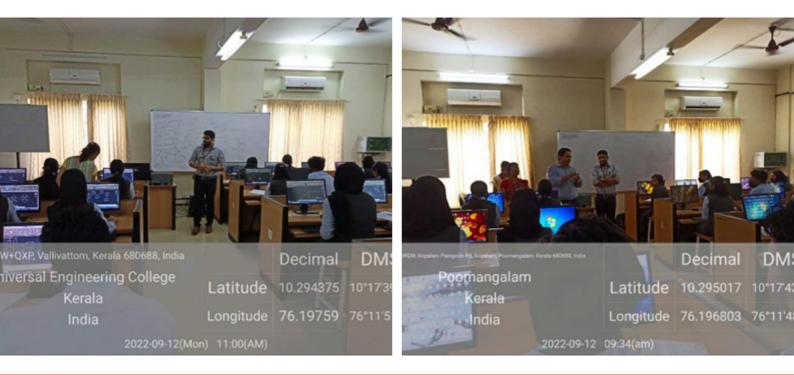

NSS 590, Universal Engineering College celebrated NSS day by flag hoisting, distributing lunch packets at Irinjalakuda bus stand, cleaning Poomangalam park, distributing mask and hand wash in the college.

SEPTEMBER 2022

CIVIL ENGINEERING WORKSHOP

Civil Engineering drafting workshop for CE students in association with CESA and The real engineering team was held on 12/09/2022 – 13/09/2022 at 9:00 am to 4:00 pm. The workshop was conducted of S3 civil engineering students. Ms.Bindumol VG (Associate professor,CE) delivered welcome speech and the workshop was inaugurated by Dr. Jose K Jacob (principal, UEC). The workshop was conducted by Mr. Sajan Jose (AP, Civil Engineering Department).
