VISION

Provide excellent engineering education, imparting skill development and innovation ecosystem to create engineers that cater to the needs of the society with strong ethical values

MISSION

- Qualified faculty and intact infrastructure, bestow creative and innovative engineering education.
- Equip the students with competent and cutting edge technologies.
- Mould the students to meet the changing challenges with global outlook.
- Inculcate moral and ethical values among students so as to serve the needs of the society.

Message - Chairman

Dr. Jose k Jacob
Principal

Message - Principal

"The future belongs to those who learn more skills and combine them in creative ways."— Robert Greene

"Resilience is accepting your new reality, even if it's less good than the one you had before. You can fight it, you can do nothing but scream about what you've lost, or you can accept that and try to put together something that's good."— Elizabeth Edwards

Life is like a marathon with challenges and opportunities along the way. By being resilient, we can bounce back from setbacks and see them as chances to grow. Continuous improvement means always trying to do better and learn more. Resilient people face obstacles with courage and determination. They don't give up easily and keep pushing forward.

In the workplace, employees who embrace continuous improvement are valued for their adaptability and willingness to learn. Instead of clinging to outdated methods or ideas, they actively seek out opportunities to innovate and refine their skills. This proactive approach not only benefits their own professional development but also contributes to the success of their organization as a whole. So, let's be resilient and keep improving to create a better future for ourselves and rewrite our stories with courage and determination.

Dear Students and staff members,

In today's fast-paced world, challenges are inevitable. Whether it's a sudden obstacle at work or a personal setback, unexpected issues can arise when we least expect them. However, what truly sets individuals apart is how they tackle these challenges and turn them into opportunities for growth and success.

In the era of digitalization, the speed at which problems are solved has become a crucial benchmark for success. With technology advancing at an unprecedented rate, the ability to adapt and upgrade our skills has never been more important. Skill upgradation not only enables us to stay relevant in an ever-changing landscape but also equips us with the tools and knowledge needed to overcome obstacles efficiently. One of the key strategies for navigating challenges in the digital era is to embrace continuous learning. This could involve enrolling in online courses, attending workshops and seminars, or even seeking mentorship from industry experts. By embracing a mindset of continuous learning and seizing every opportunity for growth, we can navigate challenges with confidence and emerge stronger than ever before.

It's important to remember that skill upgradation is not a one-time event but a lifelong journey. In a world where change is constant, staying stagnant is not an option. So, let's seize every opportunity to upgrade our knowledge and skills, and pave the way for success in an ever-changing world.

TECHNICAL TALK ON CONSTRUCTION MANAGEMENT

- Master Project Planning
- Optimize Site Management
- Implement Advanced Technologies
- Navigate Industry Challenges

Venue- B Block, UEC

08/04/2024

Speaker:
Ms. Anupama jinan
ASSISTANT PROFESSOR,
DEPARTMENT OF CIVIL
ENGINEERING,
UNIVERSAL ENGINEERING COLLEGE

TECHNICAL TALK

On April 8, 2024, Ms. Anupama Jinan, Assistant Professor in the Department of Civil Engineering at Universal Engineering College, presented a technical talk on Construction Management. The talk explored effective strategies for managing construction projects, including project planning, resource allocation, and risk management, offering practical insights for optimizing construction processes.

MoU Signed

Department of Electrical and Electronics Engineering signed the Memorandum of Understanding (MOU) between Universal Engineering College and Edusoft Software Training Centre, Thrissur, a leading training centre for REVIT and AutoCAD software. This collaborative partnership holds immense potential for students, providing them with a wide range of opportunities to develop their skills through internship programs, expert lectures, and workshops.

Department of Mechanical Engineering and Computer science Engineering* is delighted to announce the successful signing of the Memorandum of Understanding (MOU) between Universal Engineering College and KGiSL Micro College, thereby equipping the students with today's & tomorrow's job skills, making them industry-ready. This collaborative partnership holds immense potential for students, providing them with a wide range of opportunities to develop their skills through internship programs, expert lectures, and workshops.

CLASS ABOUT BASIC IDEAS IN MS WORD, MS EXCEL

On April 11, 2024, Mr. Nikhil R, Assistant Professor in the Department of Civil Engineering at Universal Engineering College, conducted a class on basic ideas in MS Word and MS Excel. The session covered fundamental features and functionalities of these software tools, providing students with essential skills for effective document creation and data management.

TRAINING SESSION

Mr. Sajam Jose (Assistant Professor, Department of Civil Engineering) conducted a training session on Kerala Municipal Building Rules (KMBR) at MTI Polytechnic College. This initiative is part of an outreach program aimed at enhancing the knowledge and skills of students in the field of civil engineering. Such programs are essential for bridging the gap between academic learning and practical application, providing students with a comprehensive understanding of the regulations and standards that govern the industry.

Mr. Sajam Jose (Assistant Professor, Department of Civil Engineering) recently conducted a training session on Kerala Municipal Building Rules (KMBR) at Sreerama Polytechnic College. This initiative is part of an outreach program aimed at enhancing the knowledge and skills of students in the field of civil engineering. Such programs are essential for bridging the gap between academic learning and practical application, providing students with a comprehensive understanding of the regulations and standards that govern the industry.

TECHNICAL TALK

On April 17, 2024, Ms. Bindumol V.G., Associate Professor in the Department of Civil Engineering at Universal Engineering College, delivered a technical talk on Green Building. The session explored sustainable building practices, design strategies, and technologies aimed at enhancing energy efficiency and reducing environmental impact in construction projects.

ARMS Inauguration 2024-2025

The inaugural ceremony of Association of Department of Mechanical engineering was officially inaugurated by Mr. SHEEN ANTONY chairman, Pilotsmith India Pvt Ltd on 18-04-2024. The chief guest enlightened the students with an inspiring technical talk.

Techno cad club of Mechanical engineering department organised one day workshop on cloud based 3D modelling software FUSION 360 on 18-04-2024. Resource person Mr. Hridesh S, Mechanical engineering department shared his immense knowledge and expertise with the students.

Encon Club

ENCON CLUB UEC organized a forenoon work shop in Energy Conservation for Chirakkal Residents association, kurumbilaav, Thrissur on 18-04-2024. Principal Dr Jose k Jacob presided over the function . Dr Joly M, HOD EEE,Sri Devasikutty,President, Chirakkal Residents association,Dr Shaniba asmi HOD, ECE delivered the felicitation address. K K Abdulrazak Coordinator Encon club led the Energy conservation seminar.
