Universal Engineering College

NAAC Accredited Institution

Approved by AICTE, Affiliated to APJ Abdul Kalam Technological University

Irinjalakuda , Vellangallur Road, Thrissur - 680 123, Kerala, Ph: +91 480 2864177, Email: info@uec.ac.in,

www.uec.ac.in

VISION

Provide excellent engineering education, imparting skill development and innovation ecosystem to create engineers that cater to the needs of the society with strong ethical values

MISSION

- Qualified faculty and intact infrastructure, bestow creative and innovative engineering education.
- Equip the students with competent and cutting edge technologies.
- Mould the students to meet the changing challenges with global outlook.
- Inculcate moral and ethical values among students so as to serve the needs of the society.

V.K Shamsudeen
Chairman

Message - Chairman

Sports are a great analogy for life, offering valuable lessons that go beyond the game itself. One of the most important things sports teach us is that character is revealed in how we handle both success and failure. Just like in life, sports provide countless examples of how to face challenges and grab opportunities.

In cricket, they say the only ball that matters is the next one. It doesn't matter if you hit a six off the last ball or were completely outplayed. The past, whether good or bad, becomes irrelevant. What counts is your approach to the next ball. This philosophy is a perfect reflection of life. We all experience successes and failures, but living on them doesn't help. What matters is how we handle the next opportunity that comes our way.

If you've faced failure, don't let it hold you back. The next chance is a fresh opportunity to succeed. Similarly, if you've had success, it's important not to rest on your laurels. Every new day presents a new challenge, and past achievements don't guarantee future success. Just like in sports, life requires us to keep pushing forward, staying focused, and giving our best effort every time. We should approach every day with a fresh perspective, ready to tackle new challenges and make the most of new opportunities.

Dr. Jose k Jacob
Principal

Message - Principal

In today's world, people often seek options, backup plans, and safety nets. It's a natural instinct to want security and a way out if things don't go as planned. However, when we look at some of the most influential people who have changed the world, a common pattern emerges: they had no choice but to succeed in what they were doing. This isn't to say they were never uncertain or scared, but rather that they approached their goals with a mindset that failure was simply not an option.

Consider the lives of great leaders, inventors, and artists. Many of them faced situations where they had no other option but to push forward and achieve their goals. They didn't have a backup plan; they couldn't just give up and try something else. This lack of a safety net forced them to focus completely on their mission and work relentlessly towards success.

For example, Thomas Edison, who invented the light bulb, faced countless failures. However, he didn't have the luxury of giving up. He had to make it work. Similarly, individuals like Malala Yousafzai, who stood up for girls' education under extreme danger, had no alternative but to fight for what they believed in.

When you truly believe that failure is not an option, you open yourself up to incredible possibilities. By removing the option to quit, you force yourself to be resourceful, creative, and resilient. So, if you want to make sure you don't give up on your dreams, embrace the mindset that you have no choice but to succeed. Remember, great achievements often come from those who had no other option but to persevere and make their dreams a reality.

Academic Heads

Dr. Jose K Jacob, Principal

Dr. K K Narayanan, Vice Principal

Dr. Jobin M V, College Dean

Dr Nitha C Velayudhan, Head of the Department, Computer Science & Engineering

Dr. Premshankar, Head of the Department, Mechanical Engineering

Dr. Harinarayan N H, Head of the Department, Civil Engineering

Dr. Joly, Head of the Department, Electrical & Electronics Engineering

Dr. Shaniba Azmi P, Head of the Department, Electronics & Communication Engineering

Mr. Akbar V K, Head of the Department, Applied Science & Humanities

ENCON CLUB

"SPREAD SEED BALLS", an Environmental project by the Department of Education Govt of Kerala. The Students and Teacher's from Govt. LPS Paingod visited our College and spread seed Ball's in our campus and discussed Environmental activities with the Encon club.

LBS OFFICE INAUGURATION

LBS office in our campus inaugurated by Irinjalakuda Municipality Chairperson on 08-07-2024 at 10.15 am.

PROUD ALUMNI

UNIVERSAL ENGINEERING COLLEGE
NAAC ACCREDITED INSTITUTION
ISO 9001:2015 APPROVED BY AQCTE / AFFILIATED TO KJ Somaiya Institute of Engineering and Information Technology

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

CONGRATULATIONS

GODWIN JOSE
of 2019 -23 Electrical and Electronics Engineering Batch for acquiring Electrical Supervisor License Grade B

MILAN K K

SECOND RANK

Kerala Water Authority
Draftsman Grade 1

Department of Civil Engineering
2017-2021 Batch

Congratulations on Achieving Remarkable Success

State Level Top 10 Institutions

Institution	District	Ideas
1 College of Engineering Trivandrum	Trivandrum	448
2 St Dominics College Kanjirapally	Kottayam	426
3 Universal Engineering College, Vallivattam	Thrissur	389
4 Bishop Chulaparambil Memorial College	Kottayam	307

We are proud to announce that our college has attained **3rd in the Top 10 Institutions** in the state level for submitting more ideas in the YIP

State wise Top 10 Facilitators

Facilitator	Idea	Institution

The Innovation and Entrepreneurship Development Cell (IEDC) conducted a Talk on on 29th July 2024 at Seminar Hall B Block. Adv . A B Manju ,Associate partner-Branch Head at Altacit Global Cochin and Clint K S ,CEO and Head Product Design - Green Orbis handled the sessions. Adv.A B Manju gave a talk on intellectual property rights and how crucial they are for startups. The second session featured a discussion by Mr. Clint K. S. on his start-up experience, including the opportunities and obstacles he encountered. Around 90 students participated in the event.

INDUSTRIAL INTERACTION PROGRAM

On July 23, 2024, the Civil Engineering Students Association (CESA), in collaboration with CISAT, organized an insightful industrial interaction program for third-year civil engineering students at Universal Engineering College. The session focused on “Building Information Modeling (BIM) Solutions”, providing students with a comprehensive understanding of the latest advancements and practical applications in the field. The event featured expert speakers who shared their valuable experiences and knowledge, highlighting the importance of BIM in modern civil engineering projects. Students had the opportunity to engage in interactive discussions, gaining firsthand insights into the industry's best practices and innovative solutions. This program not only enhanced the students' technical skills but also bridged the gap between academic learning and industry requirements, preparing them for future professional challenges.

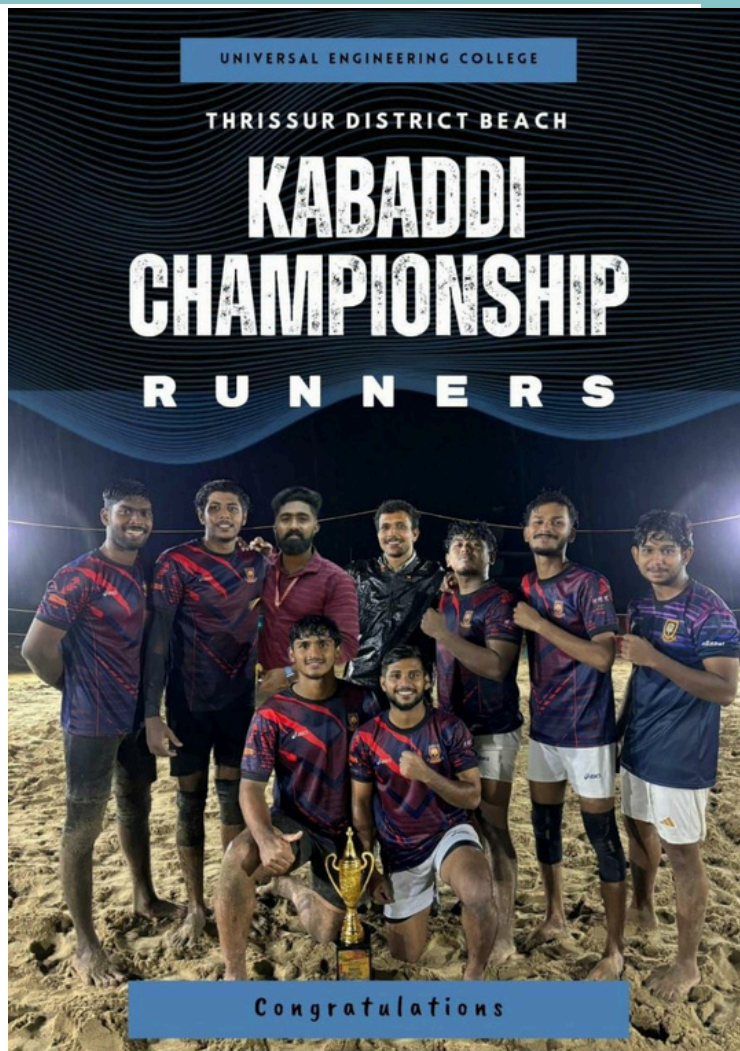

WORKSHOP

Department of Civil Engineering, Universal Engineering College completed one-day workshop series on the Basics of Civil Drafting. The event was organized by the Civil Engineering Student Association (CESA) in collaboration with 'THE REAL CIVIL ENGINEERING TEAM' led by Er. Sajan Jose. The workshop held on 24th July 2024 at, Universal Engineering College attracted attendees from multiple engineering colleges in Thrissur. The session provided students with in-depth knowledge and practical experience in civil drafting.

In commemoration of World Nature Conservation Day on July 28th, the Civil Engineering Department of Universal Engineering College Thrissur in association with IGBC and CESA organized a quiz competition for Civil Engineering students yesterday. The event aimed to raise awareness about environmental conservation and sustainability among future civil engineers, who play a crucial role in shaping our built environment. Students showcased their knowledge and skills in various aspects of environmental conservation, including sustainable practices, green technologies, and eco-friendly infrastructure development. The Winner of program is Divya Jyothi (S5 CE).
